Hello IPM Coordinator,

The California Department of Pesticide Regulation's School Integrated Pest Management Program recently completed a compliance review of Education Code Section 17611.5 for all public school districts. **Our Program did not find an IPM plan posted on your district's website as required by the Education Code.**

The Healthy Schools Act requires school districts who use pesticides not defined in [Education code 17610.5](#) to post an Integrated Pest Management (IPM) plan online, or to include an IPM plan with the annual notification sent to staff and parents or guardians of students if a website is not maintained.

The following checklist provides some useful tips in helping create an IPM Plan using the [IPM Plan Template](#):
